

Email and Text Message Registration

At Metro Dermatology, we are always striving to improve communication and prioritize convenience for our patients. We would like to communicate with you via email and text messaging for **ADMINISTRATIVE PURPOSES**. Examples of this type of information are listed below. It is important to note that this type of communication is not always secure. Emails and Text Messages can be intercepted. For this reason, **WE DO NOT COMMUNICATE PERSONAL HEALTH INFORMATION VIA EMAIL OR TEXT MESSAGE**.

Email Communication

Our Practice uses email, sent from **metrodermatology.net**, to communicate with patients and parents of minors about the following:

1. Office information: (including but not limited to) information about changes in office hours, holiday schedules, and weather delays.
2. Public Health News: (including but not limited to) information about recalls or infectious diseases.
3. Services available at our office.
4. Reminders when you or your child is due for a service: reminder to schedule a complete skin exam.

Text Messaging

Our Practice also uses text messaging to communicate with patients and parents of our patients. You will receive a text message from **(718) 886-9000**. We use text messaging to communicate with you about the following:

1. If you or your child has a test sent out from our office, we can text you when the results are available. You will receive a message similar to the following: "We need to get in touch with you - please call us at **(718) 886-9000**."
2. If you are waiting to be seen and want to leave the office while waiting, you will receive a text message similar to the following: "We will be ready to see you in approximately 10 minutes. Please return to the office as soon as possible or call us at (718) 886-9000."
3. Occasional Public Health News and Reminders similar to email communications will be communicated to you by text message.

Please fill out the information below to sign up for Email and Text Messaging communication from our office:

For Patients 18 Years and Older:
